

Allergy Testing

Frequently Asked Questions

1. How much do the test cost?
 - a. We bill insurance and whatever they don't cover will pass on to you. We charge the insurance \$330-\$400 depending on how many tests you would like. If you want all of our skin tests, then it is \$400. If paying out of pocket, there is a 20% discount.

2. I have already had skin tests done in the past and just want to start Allergy shots or Drops. Do I need to be tested again?
 - a. If the tests were done in Utah, you don't need to do the testing again. If you had a full panel of skin tests for pollens, molds, etc, then you will need to bring these records to a regular office appointment with Dr. Weatherspoon to discuss the allergy shots.
 - b. If the test were not done in Utah, you will need to redo the skin tests here. You will need to call Dr. Weatherspoon's office and schedule your allergy testing appointment. 801-798-7301

3. What Animals do you test for?
 - a. Dog, Cat, Bird Feathers, Horse.

4. I am already getting allergy shots from another Allergist and I want to start getting my allergy shots at your clinic (Canyon View Medical). What do I need to do?
 - a. You will need to have your other Allergist fax us (801-798-8513) their form for Dr. Weatherspoon to sign, giving us permission to give you your allergy shots here. Once we have signed it and faxed it back, you can then pick up your allergy vials from your previous Allergist and drop them off for us to store here. No appointment needed.

5. How long does the skin testing take?
 - a. 1 hour for the testing.
